Who we are

Lahore Fans is an undisputed ambassador of originality and lifelong persistent performance.

With one of the largest manufacturing units and state-of-the-art Research and Development in home appliances, Lahore Fans always aspired to achieve ultimate customer satisfaction.

Our machinery pool consists of every manufacturing technique required to develop and produce one of the best fans in the world. All the parts are either manufactured or developed within the domain of our organisation to guarantee an unflinching, consistent and unparalleled quality of our products.

PAKISTAN'S

1st
DESIGNER
Fan

Latest **HYBRID** Technology
ECONOPOWER

At Lahore Fan, we believe in providing future-oriented products that are crafted to save more energy, so we're excited to introduce you to our Hybrid Econopower Series of Fans, which is not only very efficient but also more sustainable in energy conservation. This series of Hybrid Econopower Fans is designed to use 75% less electricity than conventional fans while still providing higher air delivery. The motor is carefully engineered to make sure that minimal power is consumed so that only the required amount of energy is used to achieve its peak performance. You can also expect consistent workability even at low voltage settings with these fans – saving you up to 75% in electricity bills. You can run 4 fans in the cost of 1.
